

ENVIRONMENTAL INSIGHTS..

ISSUE 36

The CIP Environmental Insight is a bimonthly update of what's happening around the environmental agenda within the built environment. It's free and open to everyone. Some content is only available to subscribers of the CIP Environmental Manual and CIP Knowledge.

National Grid to invest £35bn over next five years

National Grid has set out plans to invest up to £35bn in infrastructure over a five-year period beginning April 2026, helping more renewables and energy storage come online.

Retrofitting listed buildings doesn't mean compromising on history, but it does require modern thinking

Writing in Scottish Construction Now, , Thomas & Adamson director Hamish Paterson suggests that when retrofitting listed buildings, the main concern is finding the balance between modern sustainability goals and protecting history and heritage in our towns and cities.
