Common Assessment Standard -Version 4

Back in July, Build UK published an updated version of the Common Assessment Standard. This is Version 4, which has been streamlined following the withdrawal of PAS 91 and updated to include a new Building Safety section, ensuring the Common Assessment Standard can be used to demonstrate companies have the organisational capability to fulfil their duties

under the Building Safety Act.

Driver crushed by concrete blocks on housing site

A house builder has been fined more than £300,000 after a driver was crushed to death by falling concrete blocks at a construction site in South Lanarkshire. Conor Joseph Morgan had been delivering materials to a site in High Blantrye being operated by Avant Homes (Scotland) Limited when the incident happened on 19 April 2017.

Construction Health and Safety Manual Updates

CIP's Construction Health and Safety Manual has been updated, and the amendments are now available. They continue their work with Build UK Members to ensure the Construction Health & Safety and Environmental manuals include industry recognised health, safety and environmental policies and standards.
